Professional Summary

Computer Science and Engineering student with hands-on experience in UI/UX design, web development, machine learning, and cloud technologies. Proven ability to build scalable, real-world applications through internships and national-level hackathon participation. Skilled at collaborating with cross-functional teams and delivering user-centric solutions. Seeking an entry-level software or IT role to apply technical skills and drive organizational success.

Technical Skills

Languages: Python, C, Dart, JavaScript

Frameworks & Technologies: Flutter, Firebase, MySQL

Cloud & Tools: AWS Cloud Fundamentals, Git, Version Control, Data Structures & Algorithms

Work Experience

UI/UX Design Intern – Crescent Info Tech

Erode, Tamil Nadu

2024

- Designed and prototyped user interfaces for web applications, enhancing usability and user experience.
- Applied wireframing, visual hierarchy, and user-centered design principles to build intuitive layouts.
- Collaborated with developers to implement design solutions and iterated based on usability feedback.

Web Development Intern – Crescent Info Tech

Erode, Tamil Nadu

August 2024

- Built and improved front-end interfaces using HTML5, CSS3, and JavaScript in a real-world dev environment.
- Improved cross-browser compatibility and front-end performance across multiple web projects.
- Worked within an Agile team, demonstrating leadership, discipline, and effective collaboration.

Projects

AI-Based Crop Recommendation System (SIH Finalist)

Python, ML, Flutter, Firebase

- Developed an ML-powered mobile app analysing soil (NPK) and weather data to recommend optimal crops.
- Delivered real-time predictive insights using supervised learning models to improve agricultural yield.
- Built cross-platform interface in Flutter with Firebase backend for secure, scalable data storage.

Civic Ease – Smart Civic Issue Reporting System

Python, NLP, Image Processing, Cloud

- Engineered a crowdsourced platform for reporting and tracking civic issues with geo-tagged image uploads.
- Implemented AI-driven issue prioritization using NLP and image processing, reducing manual effort.
- Deployed on a cloud-based architecture ensuring high scalability, security, and real-time notifications.

Certifications

AWS Cloud Foundations – Amazon Web Services

NPTEL: Fundamental Algorithms – Design and Analysis – Jan–Feb 2025

Smart India Hackathon (SIH) Finalist – Government of India

Web Development Internship Certificate – Crescent Info Tech, Aug 2024

Education

Karpagam Institute of Technology

B.E. – Computer Science and Engineering

Coimbatore, Tamil Nadu

2023 – 2027
